

Village of Eagle
Parks & Recreation Commission Minutes
August 18, 2020
Eagle Municipal Park Shelter

The meeting convened at 6:08 pm with the following members present: Terri Todd, Travis Moore, and Elizabeth Umshler.

The Commission discussed scheduling a clean-up day in September and the prioritization of park improvement projects. Elizabeth Umshler will continue working with Linda Behrns, the Executive Director of Keep Cass County Beautiful, to gather supplies for the clean-up day and apply for grants available for funding (update that there are no Lowe's grants available this year due to the pandemic- this would specifically apply to the baseball field).

The Commission reviewed the prior list of park improvement projects and adjusted, as necessary. The survey will be updated to reflect 2020 project ideas and distributed so residents can vote on project priorities. The Commission's priorities as of now are the following:

- Playground equipment update- West side of park
- Baseball field upgrades- dugout shelters, benches, plant trees

In addition to the survey, "in memorial" donations will be included as a question to gauge interest.

Meeting was adjourned at 6:48 pm.
